Quick to bump in and out, this stage is ideal for smaller events, duo's, 3 or up to 5 piece bands, presentations, sporting events, wineries, weddings. It's a compact, versatile solution for your event!

Give your event the presence it deserves!

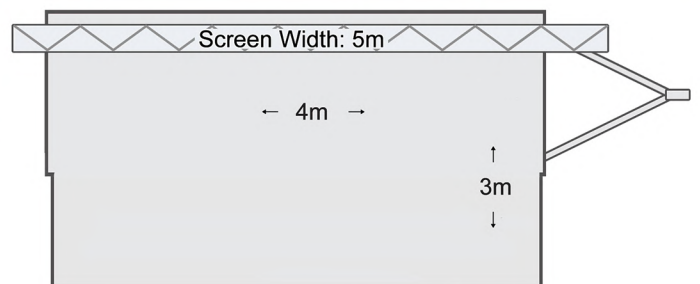

Ideal for road closure events, the stage can be set up in around 15 mins and bumped out even faster.

Features plug & play 32amp 3phase power input and multiple x 240v outlets.

For all stages, specs & details:

stagepro.com.au

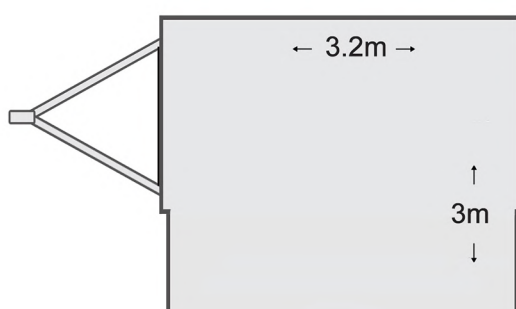

This unique multi-purpose stage is 4m x 3m with a rear frame for drape backgrounds, branding and an outdoor Cinema Screen! A 3-piece band fits comfortably and then converts to a cinema as required.

The cinema system suits audiences of around 300 people, And our 5 metre Cinema Screen rig also has a staging area for pre-screening entertainment. We rear-project to avoid any trip hazards for your audience.

The screen has drapes to hide the trailer wheels and the projector beam. A PA & operator is supplied with the screen. The 5,500 lumens projector produces a bright, crisp image for outstanding image reproduction.

POD STAGE *The POD stage is a versatile weather resistant performance area in a small footprint.*

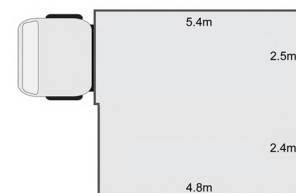

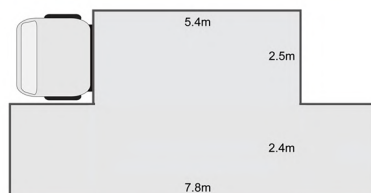

Sometimes bigger isn't better!

Ideal for: Duo's, DJ's, Radio Commentary platform, ticket/info booth, Auctioneers indeed anywhere you need a compact platform for your event. It's fully mains wired, so it's plug & play with multiple internal power points. The four strong leveling jacks provide for a very stable platform, and the Pod Stage can be packed up and bumped out in only a few minutes!
